

# Datum Solutions PEGA Practice

Transforming business across a wide spectrum of industry sectors.

# Business Process Management Methodology

---

The goal of the Business Process Management (BPM) methodology is to increase the efficiency, agility, and effectiveness of business processes of an organization. In the current business scenario, improvement can be achieved by increasing trusted automation while decreasing the dependency upon human intervention for lower value or non-essential tasks. The Datum BPM methodology discovers, maps, and dissects current business processes and reorganizes them into new, streamlined processes incorporating the automation inherent in modern BPM tools and methodologies.

## PEGA

---

The PEGA BPM platform is recognized as an industry leading solution for Business Process Management (BPM) & Case Management (CM). PEGA offers an application development platform capable for large enterprises seeking to build, deploy and evolve strategic business applications. The solutions can be designed, maintained, and deployed by business users ultimately minimizing support of the IT team.

# Datum Solutions PEGA Practice

The goal of the Business Process Management (BPM) methodology is to increase the efficiency, agility, and effectiveness of business processes of an organization. In the current business scenario, improvement can be achieved by increasing trusted automation while decreasing the dependency upon human intervention for lower value or non-essential tasks. The Datum BPM methodology discovers, maps, and dissects current business processes and reorganizes them into new, streamlined processes incorporating the automation inherent in modern BPM tools and methodologies.
